نبذة عن الشركة

### Automation & Smartphone Control

All of our products are operated by internationally renowned Somfy motors from France. Guaranteed for 5 years and using RTS technology, the motors can be operated at the simple touch of a button. With the MyPalmiye App which has been designed specifically for Palmiye products and is available at Apple's App store, you can take full control of your Palmiye experience and choose from several options, directly from your iPhone or iPad.

### Dimmable LED Lighting

Depending on whether you want strong practical lighting, or an atmospheric dimmed ambience, be sure to make use of Palmiyes -3Lens LED Technology. You can dim the light directly from your Remote Control. Investing in LED technologies is part of Palmiyes contribution to a greener environment.

### Design your own Pergola

Each of our products is hand crafted and in itself unique. From the canvas to the construction, you can completely customize your product. As well as our wide range of Pergola Series, you can choose from various RAL Colors and a broad range of canvas options.

### Vertical Awnings

Horizontal sun rays can be reduced with a vertical blind. It is a full cassette awning that protects the awning fabric from wind and weather. Our special see-through fabric creates shade without interrupting the view and provides you the privacy need.

### Glass Enclosure

Enclose your Product with various Glass Systems and create a Wind- and Watertight Wintergarden. By that you can add indoor comfort to your Product and you get an outdoor living room.

### Integrated Drainage

Specifically designed to add a nice aesthetic touch as well as being highly functional, this Integrated Drainage System (IDS) ensures that all water is smoothly drained inside the front pillar.
